PROGRESS REPORT...

We are nearing the Holiday Season. Suppliers are increasing their inventories on AR style rifles and concealed carry handguns. Oddly, there continues to be shortages of some duty-sized handguns. I'm working to supply both handgun styles while also maintaining an assortment of AR style rifles. Bushmasters and DPMS have proven to be popular even though they represent opposite ends of the price spectrum. I have been receiving notifications of new .308-class AR's coming into the market. I expect pricing to be very competitive. This is great news for all of us as the .308 literally delivers more bang for the buck! I continue to work with Mike Davis, the owner of Extreme Defensive, on several projects. Class sizes are still robust. Shorter classes offer more folks the opportunity to exercise their 2nd Amendment Rights. These classes are not just the gateway to a Texas Concealed Handgun License, CHL, but for many, they can be the real start of responsible gun ownership. In Mike's classes you will learn common sense approaches to gun safety & ownership. And they're fun, too! ***Please select the Extreme Defensive link on my website.***

WHY BUY HERE?

[CUSTOMER SERVICE!]

Simply put, Great Customer Service

Pete called the other day with a problem. After our short conversation he decided to discuss his options with his wife, Linda. About a week later Pete called back asking me to sell him a Ruger .380 and Jimenez Arms .22LR. One small issue, Jimenez Arms was, allegedly, out of business! I was able to contact Liz at Jimenez Arms. Liz is part of the team that had just purchased Jimenez Arms and got production back on track. I ordered several .22's. They arrived the next day! They're priced at just \$159.00 and are pretty sturdy. All, but one, were gone in a week! Linda is enjoying her new JA22 thanks to the great customer service provided by Liz at Jimenez Arms.

**WE
WANT
YOUR
GUNS!**

Few phrases can get our immediate attention faster than, "WE WANT YOUR GUNS!" Well, in this case, it's really not a bad thing. We need to add inventory. The best method I've found is to help folks turn their rarely used guns into cash. In turn, I'm able to sell them through a vast network. So, if you have a friendly little firearm that needs a loving home, give me a call. I'll work to put it into the hands of someone who will love & cherish it!

I could be wrong*

Dan sent an email to me that stopped me in my tracks. Even though it was Snopes authenticated, I wanted to be sure, so I emailed the author. In very short order I received a reply from Dennis L. Guthrie, Esq. verifying the authenticity of his email and permission to reprint it as I saw fit. Mr. Guthrie strikes me as a very humble man, yet he is a true American Hero! This is an American I would be proud to meet! So, no more of my rambling...

Dear Ms. Pelosi:

I write to you out of utter disdain! You are as despicable and un-American as the traitor Jane Fonda.

I am a soon to be 65 year-old who has voted in every state and local election since 1966. I have voted for both Republicans and Democrats alike. I have worked on campaigns for both Republicans and Democrats, white and black. I served the country that I love in Vietnam, as my son did in the Middle East. I was awarded two bronze stars. I have been involved in politics since age 6 when my father was campaign manager for a truly great American Congressman, Charles Raper Jonas, who worked for his constituents and his country, and was to be admired, unlike you.

You obviously haven't read the Constitution recently, if ever, the Federalist Papers, or even David McCullough's book on John Adams. You ought to take the time while riding around in your government provided luxury executive jet to do just that. You represent Socialistic and even Marxist principals that our founding fathers tried to avoid when setting out the capitalistic republican form of government represented by our Constitution.

I find it interesting that you and your husband are multi-millionaires with much of your fortune being made as a result of your public service. You have controlled legislation that has enhanced your husband's investments both on and off shore. At the same time you redistributed the wealth of others. Our system of a free market economy is being destroyed by the likes of you, Harry Reid, and now our President. You ride around in a Gulfstream airplane at the tax payers' expense while criticizing the presidents of companies who produced something for the economy. You add nothing to the economy of the United States; you only subtract therefrom.

I would like to suggest that you return to the city of fruitcakes and nuts and eat your husbands' canned tuna and pineapple produced by illegal immigrants and by workers who have been excluded from the protection that 90% of the legal workers in the United States have.

I await your defeat in the next election with glee...

Don't ever use the term "un-American" again for protesters who love this country and are exercising their rights upon which this country was founded. By the way, while I served in the Army, I was spit on by the same type of lunatics who support you and who you probably supported in the 60s and 70s. You are an embarrassment to all of us who served so that you would have the protected right of free speech to call us un-American. But at the same time, I have the right to write you to notify you that I consider you to be un-American, as do the majority of the people of this formerly great country. You are a true disgrace to most of the people who served this country by offering themselves for public service in the United States Congress.

I feel certain your aides will not share this letter with you, but I intend to share it with many...

Sincerely,

Dennis L. Guthrie
